I. INTRODUCTION

Friendship Public Charter School is a college-preparatory charter school community serving nearly 5,000 students from grades PK3 through 12 across 15 campuses located in Wards 4, 5, 6, 7 and 8. Our goal has always been to give our students and families top-tier programs that provide the knowledge, skills and experiences to support their college and career aspirations. Beginning in prekindergarten and continuing through high school and ultimately college graduation, we offer a range of programs to support our students:

- Reggio Emilia inspired early childhood program
- International Baccalaureate
- Robust dual enrollment (college credit) offerings through partnership with American University, Arizona State University, Howard University, Granite State College and Marymount University
- Online and hybrid programs in partnership with Stride/K12 and EdOptions Academy, providing courses for Friendship students and other District schools
- Enrichment programs including our integrated arts curriculum; outdoor classroom lessons encompassing urban agriculture, nutrition, youth entrepreneurship and environmental sustainability;
- College success programs, including counseling and internship placements, as well as college scholarship programs.

Understanding our vision for students and the challenges presented by the pandemic, Friendship PCS redoubled its efforts to support high achievement among our students and team members. Our team and students worked together to gain ground as we returned to school for our first full year of in-person teaching and learning since the start of the pandemic. Our core instructional program, learning acceleration strategies, focus on college preparation, health and safety response and enrichment activities continued in 2021-22.

Ultimately, our results showed substantial progress and defied some local and national trends. To begin the year, Friendship PCS saw a 7 percent student enrollment increase, defying local and national enrollment declines. Armstrong Elementary, Blow Pierce Elementary and Collegiate Academy saw increased PARCC performance with Blow Pierce Elementary and Collegiate ranking in the top 3 for ELA and mathematics performance among DC public schools with similar student demographics. Southeast Elementary received one of 14 Bold Performance Awards given to DC schools for their 2021-22 PARCC performance. Our early childhood instruction received high ratings on the CLASS assessment with average performance exceeding DC Public Charter School Board performance targets. And we continued to see Friendship Collegiate and Tech Prep graduates move on to college at rates that exceed national trends for districts with similar demographics.

Finally, as we enter the final five year period of our charter, we see that Friendship's academics, financial management and governance has met the DC PCSB's standards for charter continuation. Each of the Friendship campuses has met the academic goals standard. Friendship's annual financial audits consistently show that we meet audit standards and maintain reserves to ensure continued operations. Friendship's high ratings for operations, particularly during the pandemic, made it a national finalist for the 2021 inaugural class of the Sustainable, Transformational, Outstanding, and Permissionless (STOP) Award, which recognized our SY 2019-20 response to distance learning at the onslaught of the COVID-19 pandemic.

Additional details, including a program overview, summary of results, and other important data points are provided in the remainder of this report.

II. SCHOOL DESCRIPTION

A. Mission Statement

The mission of Friendship Public Charter School (Friendship) is to provide a world-class education that motivates students to achieve high academic standards, enjoy learning, and develop as ethical, literate, well-rounded and self-sufficient citizens who contribute actively to their communities.

B. School Program

1) *Summary of curriculum design and instructional approach*

The foundation of our curriculum design is the belief that all children can, do, and will learn. Within the design, teachers work collaboratively to determine the big ideas and essential questions inherent in each standard and plan instruction to ensure that students achieve high levels of learning. Assessment is used as a tool to gauge students' mastery of standards and helps teachers identify their individual needs. Through a continual cycle of inquiry, teachers can individualize instruction and address deficiencies immediately. We know that the success of our students is largely determined by what our teachers believe, know, and can do. Therefore, we invest a great deal of time and energy in ensuring that our teachers are involved in a robust cycle of professional development and in providing students with extended and supplemental learning opportunities. Friendship's English Language Arts and Mathematics curricula are aligned with the Common Core State Standards. Our Science curricula is aligned with the Next Generation Science Standards. Developmentally appropriate interventions and assistive technologies are used to accelerate student learning when academic performance is below grade level. Accelerated students are given advanced level project-based learning assignments to further their academic growth.

The fundamental principle guiding the Friendship program is an intensive focus on developing scholars' knowledge and skills while developing their tenacity, flexibility, and confidence as current and future scholars. High quality curriculum and classroom resources, including authentic texts and student work are cornerstones of learning that support scholars' development and deep understanding of content and standards. Teaching methods engage scholars in learning related to a theme, labs, and other hands-on activities that cultivate intellectual growth and empower scholars to rise to their highest potential and have an impact in their communities.

CURRICULUM

Friendship implements and refines curricula aligned with the Common Core State Standards for Math and ELA, and literacy standards in Science and History. Writing standards are aligned horizontally to allow teachers to coordinate their instruction across the curriculum and organized to match PARCC's recommendations. These standards demand an increased proficiency in problem solving, critical analysis, and evaluating strength of supports and claims through the quality of evidence provided and utilized. The Common Core State Standards also promote an increased focus on scholars' proficiency with conceptual knowledge, application, analysis, and evaluation.

Friendship leaders implement a development plan to ensure that the curriculum is implemented with fidelity. Every quarter Friendship holds a collaborative planning session during an early release day. During these sessions, teachers meet in cross-campus course teams to deepen their understanding of units and design instructional plans. Community Office staff and campus-based instructional staff support teachers in this planning and follow up with observations and feedback throughout the year.

EARLY CHILDHOOD PROGRAM: PRE-SCHOOL, PRE-KINDERGARTEN AND KINDERGARTEN

Friendship provides a comprehensive full-day program for children in pre-school (3 year olds), pre-kindergarten (4 year olds), and Kindergarten (5 year olds) at our Armstrong, Blow Pierce, Chamberlain, Ideal, Southeast, and Woodridge International Elementary campuses. Our early childhood program is designed to challenge students academically and intellectually while supporting the development of social/emotional, physical, cognitive, and language skills of all children.

All early childhood classrooms at Friendship PCS implement a play-based approach that is rich in language, literacy, math, science and engineering, social studies and the arts. Each of our campuses schedule “center” time for students to have free choice in engaging, learning stations. Our goal is to make the first years of learning highly engaging, incredibly fun and educational. Teachers follow a detailed scope-and-sequence that addresses early literacy, math reasoning, and communication skills, social emotional and physical development, social studies, and science. Additionally, we utilize the Emergent Curriculum philosophy as a way of teaching and planning in which teachers are responsive to children’s interest and use the information gathered to create profound and dynamic learning experiences for children. Their instruction is informed through assessment data including observations with anecdotal records, portfolios, performance and standardized assessments. Teachers provide learning experiences that are hands-on and appropriately challenging for students. Learning is facilitated in flexible small group lessons (ex. literacy and math), whole group instruction (ex. read alouds and science) and individualized instruction. Supplemental curricula are available to support phonemic awareness through “Hegerty” and character development through “Positive Action.”

Friendship’s early childhood programming includes a Reggio Emilia Inspired Approach at three of our elementary campuses – Armstrong, Ideal, and Blow Pierce. The Reggio Emilia Inspired Approach recognizes and values the tremendous potential of young children. Teachers are trained to really listen to children in order to nurture their curiosity and develop their ability to think deeply as researchers and to represent their ideas. This philosophy and pedagogy provides a dynamic experience that encourages children to explore, discover, create, collaborate, and construct meaning in their world. The learning process is grounded in relationships between children, instructors, family, materials, and the environment. Children cultivate a variety of means for self-expression and representation of ideas that builds their self-confidence, creative thinking, collaboration and communication skills. As the children gain these 21st century skills, they are better prepared to thrive in elementary school and to succeed in life.

Within this EC learning framework, there is a very strong emphasis on inquiry and investigation. Children are encouraged to research topics of interest and in the process learn there can be multiple solutions for challenging concepts. The opportunities to work on projects of interests that are infused with academic and social-emotional standards and skills, boosts children’s cognitive

processes promoting a sense of wonder and curiosity and increasing problem-solving skills. Our approach is intentional; with the support of invitations to explore, puzzling provocations and cycles of inquiry to facilitate higher order thinking, we encourage children's sense of agency and desire to learn more about their world. Teachers honor children's ideas and implement the pedagogy of listening to access children's understandings and theories to challenge them from that place.

The atelier, "laboratory" or "studio", is a space of experimentation and deep thinking where art media and materials come alive. We know that learning is fostered by creating relationships and this is highly encouraged in the laboratory. All children are born creative with a rich imagination. In the atelier, children have many opportunities to explore their imagination and represent their thoughts and ideas with many different art media and other materials. In the Reggio Approach, the metaphor that the child has 100 languages is used to represent the varied ways that children can share their ideas when they have ample experiences exploring and using a variety of media and materials on a regular basis. In this way, adults gain further insight into children's perceptions and understandings of their world.

LITERACY DEVELOPMENT

Scholars at Friendship participate in a rich and rigorous approach to literacy development throughout their Pre-K to 12th grade years at the school.

Elementary and Middle School Curriculum

Friendship's curriculum for the elementary and middle school grades is composed of four modules per grade level. At the core of each module is a selection of literary works, informational texts, and visual art. Modules are made up of 30 lessons, which are covered in 6-8 weeks of study. All modules integrate reading, writing, speaking, listening and language instruction.

High School Curriculum

Friendship's English Language Arts curriculum is built around embedded assessments that are mapped to AP and college readiness standards. Every course is divided into four to five themed units. Each unit takes about four to six weeks and guides students through multiple texts. Every unit guides scholars through a close reading of an entire short work. Instruction is divided into four phases: Plan, Teach, Assess, and Adapt.

MATHEMATICS

Friendship uses a three-tiered approach for math instruction: discrete skill building, conceptual foundation building, and application. Students engage in math performance tasks to demonstrate that they can apply their math understanding to real or simulated scenarios.

Conceptual Foundation Development and Discrete Skill Building

In the Friendship math classrooms, scholars learn core mathematical content and standards through online learning (including Khan Academy), collaborative learning with their peers or direct instruction from a teacher. Friendship uses teacher generated, standards-driven lessons built from the Eureka Math curricula.

Application

Scholars spend a significant amount of time building their conceptual knowledge of mathematics through project based learning and online platforms. These opportunities are provided to students during their time in the Smart Lab (STEM problems) and project-based assessments.

SCIENCE

The K-12 Science Curriculum is a comprehensive academic program that is aligned to the NGSS Standards and compatible with the national K-12 Science Framework. Our overarching goal is to ensure that graduating high school seniors:

- Acquire an appreciation for the beauty and wonder of science;
- Possess sufficient knowledge to be conversant of science and engineering issues;
- Are careful consumers of scientific and technological information relative to their own lives;
- Have sufficient knowledge to continue to learn and understand science outside of school; and,
- Possess the skills necessary to not only enter and be successful in the STEM field, but ultimately enter any STEM career of their choice.

A key component of our curriculum design is in the demand for Scientific Literacy, which is the ability to reason scientifically, understanding the core ideas and crosscutting concepts of science and the ability to effectively apply and utilize scientific principles for personal and societal purposes.

The essentials of all of our science instruction lies in inquiry. Exploration is a rock bed of science and occurs from Pre-K years through grade 12. Labs are a critical component of exploration and therefore occur in all science classrooms. Complementary to the labs are maker spaces and smart labs.

Teachers use the 5 E's of Science as a teaching approach

- Engage - Engagement activities help scholars to make connections with what they know and can do.
- Explore - Scholars work with one another to explore ideas through hands-on activities and clarify their own understanding of major concepts and skills.
- Explain - Scholars explain their understanding of the concepts and processes they are learning and teachers clarify students' understanding and introduce new concepts and skills.
- Elaborate - Scholars apply what they have learned and teachers build on the students' understanding of concepts to extend their knowledge and skills.
- Evaluate - Scholars assess their own knowledge, skills, and abilities. These lessons allow teachers to evaluate students' progress.

Students also are required to participate in campus-based STEM Fairs. Each campus location executes a schoolwide STEM Fair whose winners then move forward to the Friendship Districtwide STEM Fair. Following this experience, Districtwide winners proceed to the Citywide STEM Fair, where all DC school winners convene to compete. Historically, Friendship scholars are highly recognized in this setting because of their unique and innovative projects. It is this experience that catapults students to discover their ability to be creative and innovative and become excellent communicators, all of which ultimately grounds them to enter the STEM pipeline with confidence and longevity.

The Science Department also is fueled by its vital partnerships, which include the Carnegie Institution of Washington, Catholic University's STEM Department, Howard University's School of Education, Smithsonian Institution/Shell Oil, and a variety of small businesses with a focus on STEM.

HISTORY AND SOCIAL STUDIES

The Friendship history and social studies curriculum personalizes social studies and prepares scholars for college, careers, and civic life. Friendship History and Social Studies teachers use the 5Es lesson design model for instruction.

In the early grades, scholars develop the foundational skills and content knowledge that will be further enhanced in later years. Scholars additionally explore relationships between themselves and their community, nation, and the world at large.

PHYSICAL EDUCATION

The goal of Friendship's physical education program is to help students become responsible citizens who are both physically educated and health literate.

Each student will set and achieve personally challenging goals in physical activity, apply higher order thinking skills to human movement, and design personal movement and fitness plans. Students will be able to display the skills and practices of a physically active lifestyle, knowing the benefits of their choices to be involved in physical activity. They will be physically fit and have a mindset that values physical activity and its benefits in sustaining healthy lifestyles.

What is taught in Prekindergarten through Grade 12 is based on six standards:

(1) Exercise physiology; (2) Biomechanical principles; (3) Social psychological principles; (4) Motor learning principles; (5) Physical activity; (6) Skillfulness.

ELECTIVE CLASSES

Elective classes are offered beginning in elementary school. Fine and performing arts, physical education, and world languages are integral parts of each scholar's education, from elementary through high school. In grades PreK-8 scholars have opportunities to participate in athletic and artistic electives courses. HS electives are offered based on student interest and career pathway, along with various independent study projects through the Smart Lab. Smart Lab electives are taught and supervised by the Smart Lab Director.

SPECIALIZED PROGRAMMING

VIRTUAL AND BLENDED LEARNING

Elementary and Middle: Since 2015, the Friendship Public Charter School Online has been the only public online school in Washington DC. The campus uses a unique blend of virtual and blended learning. Partnering with K12 Virtual Schools, Friendship has established a distinct online distance learning program for students in grades K-8. As in past years, the campus used the Advanced Ed accredited K12 curriculum to bring Core Knowledge lessons to life with a mixture of online and offline teaching tools, including interactive animations, printed books, original CDs, videos, and hands-on materials for project-based learning activities across academic subjects.

Friendship Online students are served by certified, highly qualified teachers and provided with synchronous instruction. Teachers receive the professional development and support needed to effectively instruct all students in reading and mathematics (integrating science and history topics and skills) and to have a positive impact on student achievement in these content areas.

High School: The Friendship Collegiate Online Academy was launched in SY 2018-19 with an inaugural 9th grade class and is the only virtual high school academy in the District. Friendship partnered with Edmentum/EdOptions Academy to offer students high quality curricula delivered by certified, highly qualified teachers. The program is aligned to Common Core State Standards via a learning platform that is accredited by Cognia (formerly Advanced ED) and Western Association of Schools and Colleges (WASC), and whose courses are NCAA approved. Like our K-8 program, full-time virtual students are provided instruction through asynchronous and synchronous mediums. Students can receive support through online and in-person tutoring. Also available to students enrolled in Friendship's brick and mortar high schools, are more than 400 courses that enable them to take courses beyond what is offered during their regular school day.

INTERNATIONAL BACCALAUREATE

The Woodridge IB Primary Years Programme (PYP) is a curriculum framework designed for students in Prekindergarten through fourth grade. It focuses on the development of the whole child as an inquirer, both in the classroom and the world outside. The PYP is defined by six transdisciplinary themes of global significance, explored using knowledge and skills derived from six subject areas, with a powerful emphasis on inquiry-based learning. Students begin the inquiry process through learner profile traits and attitudes.

ARTS PROGRAM

The arts at Friendship is part of the daily student experience for elementary, middle and high school grades. We offer an arts integrated approach to learning and embrace arts education throughout the general education curriculum. Arts programs at Friendship follow OSSE DC state standards. Students have a high level of engagement and hands-on learning in both the core classes as well as in the arts classes. In preparation for ensuring students are able to compete globally, we offer Pre-AP and AP arts courses at the high school level. Engaged students in the arts are more active learners, display increased retention, and learn to think more critically.

Visual and performing arts specials are offered to students as part of the core curriculum. As students advance to later grades, they have the opportunity to select an arts focus and participate in courses aligned to their interest. Students receive regular instruction in the arts, including participation in master classes with visiting musicians, painters, poets, dancers and singers during which they receive lessons and valuable feedback based on their work portfolios and performances. Intentional learning experiences beyond the classroom are implemented in the curriculum through community-based partnerships, internships and collaborations. Students are able to develop through their own artistic expression of choice led by a diverse and globally regarded group of teaching artists. Finally, students are engaged in multiple exhibits, portfolios and performances throughout the school year during which their talents are showcased to parents, staff and community members.

PRE-AP AND AP PROGRAMS

Friendship Collegiate Academy was one of 100 high schools nationally selected as a Pre-AP high school in partnership with the College Board. SY 2018-19 was the first year of implementation and Friendship Technology Preparatory Academy implemented Pre-AP courses SY 2021-22.

Pre-AP courses deliver grade-level appropriate instruction through focused course frameworks, instructional resources, learning checkpoints, and collaborative educator workshops. The courses are designed to support all students across varying levels of abilities through focus. The program grants

educators and their students the space and time for deep engagement with content. Participating schools receive an official Pre-AP designation for each course and the opportunity to bring engaging, meaningful, foundational coursework to all their students across varying levels of abilities. This designation signals consistent, high standards in focused courses that help build, strengthen, and reinforce students' content knowledge and critical thinking skills. These courses prepare students for the rigors of Advanced Placement courses and exams.

In addition to the Pre-AP program, both Friendship Collegiate and Friendship Tech Prep offer multiple AP courses for students.

HIGH SCHOOL CAREER ACADEMIES

In addition to courses in core academic areas, students at the high school level are provided the opportunity to participate in Career and Technical Education (CTE) courses and in the high school career academies. Career academies offer students the opportunity to explore careers and apply knowledge gained in core subject areas, a practice that has been found to engage better students in learning. The Career Academies use the National Academy Foundation (NAF) Academy Design.

DUAL ENROLLMENT

Every student, regardless of the track that s/he pursues, can also take college courses year-round. In partnership with American University, Arizona State University, Granite State College, Howard University, Marymount University, and University of the District of Columbia, Friendship Collegiate and Friendship Tech Prep offer online and in-person college courses. In addition, Friendship's partnerships with institutions of higher education have afforded students the opportunity to attend summer programs during which they can earn college credits. Students are able to graduate from high school with up to two years of college credits.

PARENT INVOLVEMENT EFFORTS

Recognizing that parents are vital to the success of our students, Friendship has invested in the development of programs that ensure our parents are active contributors to the Friendship community. Parents have been able to participate in a range of activities including the Parent Advisory Committee, helping to run extracurricular activities and serving as classroom support. In addition, services such as parent workshops and referrals to services have been provided.

Finally, Friendship opens its doors to parents throughout the year for discussions regarding the school's progress as well as their individual children's progress through data talks and Quarterly Learning Contract (QLC) days. The array of programs offered provides services for parents as well as opportunities to participate in and help shape their children's experience in our schools.

To ensure that parents feel connected to the schools and to Friendship, the following activities were conducted in SY 2021-2022.

PARENT ADVISORY COUNCILS (PACs) bring families and teachers together to promote the education of our children by raising funds for school supplies, educating other parents, and helping teachers to ensure that every child gets a high- quality education. All parents and guardians of Friendship students are automatically enrolled in PACs at each school.

BACK TO SCHOOL NIGHT is an annual school event that marks the beginning of the new school year. On this night, teachers explain their goals for the class and for scholars. They'll share information about their teaching style and methodology, how they grade and the requirements for a good grade. Families also find out what supplies their scholar will need for the year, what projects are coming up and discover ways they can be involved.

BREAKFAST WITH THE PRINCIPAL is a monthly 'Chat & Chew' for Friendship families to ask questions or speak with the principal about concerns.

PARENT UNIVERSITY helps families bridge the challenging gap between school and home. The workshops teach how to use inspired techniques for motivating scholars, how to give meaningful feedback that fosters growth at home, and how to build strong relationships with teachers that increase student achievement.

DATA NIGHTS at each campus allow families the opportunity to examine their child's data, discuss implications, and assess the school's current success on established indicators. Data Nights ensure that everyone has the same data, has an opportunity to talk about its meaning, and to contribute to the analysis and move forward to develop a plan for their child and school's continued improvement.

FAMILY LITERACY NIGHTS engage students and families in meaningful literacy activities while strengthening the partnership between school and home.

ENGLISH AS A SECOND LANGUAGE (ESL) COURSES are for families that have an interest to gain experience using the English language. The course covers vocabulary, grammar and conversation practice in English through listening, speaking, reading, and writing activities.

QLC (Quarterly Learning Contract) conferences allow families one-on-one time with their child's teacher and are the perfect time to discuss concerns and/or create an action plan to help their child do their best work during the school year. Families, students and teachers work collaboratively to set performance goals and targets for the year and each quarter.

Although Friendship provides a wealth of opportunities for parent participation as a school district, effective strategies for partnerships differ from campus to campus and vary based on the local interests and needs of the campus. Campus-based activities include the following:

- Parent University
- Teacher Appreciation Breakfast
- STEM Fair
- Read to Succeed Program
- Harvest Festival

- National Day of Service
- Quarterly Awards Assembly
- Men Make A Difference Day
- Community Thanksgiving Event
- Winter Showcase
- Art Showcase

III. SCHOOL PERFORMANCE

A. Performance and Progress

- 1) *Meeting the Mission.* Friendship operates around a simple principle: that all students go to and through college. We seek to achieve this through our mission: *To provide a world-class education that motivates students to achieve high academic standards, enjoy learning and develop as ethical, literate, well-rounded and self-sufficient citizens who contribute actively to their communities.*

Strategic Programming

In keeping with our mission, Friendship continued its focus on raising our internal standards and providing high-quality learning options for scholars in pre-K to 12th grade. We implement the following strategies and programs to ensure all stakeholders meet expectations espoused in our mission and set consistent, high academic standards.

- Rigorous curricula with a focus on concept development delivered in a way that is developmentally appropriate and engaging for all scholars;
- Professional development for Community Office and School-Based staff that ensures leaders and teachers are supported in their implementation of curricula and other programming, and effective operation of our LEA and campuses;
- Intervention programs that accurately diagnose and address academic and social-emotional gaps in learning so that students' needs are met and they excel academically;
- Opportunities for students to apply learning through real world experiences (e.g. project-based learning, participating in non-violent protests, developing projects for participation in STEM and science fairs);
- Exposure to post-secondary options through dual enrollment courses, college tours, and internships; and
- Implementation of our full-time virtual K-8 Online Academy and 9-12 learning program at Friendship Collegiate.

- 2) **Charter Goals and Academic Achievement Expectations.** Friendship adopted the Performance Management Framework as its goals and academic achievement expectations. Friendship's charter goals are stated as follows for the second five-year period beginning in 2017-18 and ending in 2021-22.

At its twenty five-year charter review in SY 2022-23, each individual campus earns an average PMF score for SYs 2017-18, 2018-19, 2019-20, 2020-21, and 2021-22 equal to or exceeding 50%. Improvement Provision: In cases where the school has not achieved the above thresholds, the DC PCSB Board may, at its discretion, determine that the school and/or campus has demonstrated consistent improvement on overall PMF scores on each PMF over the five-year period. In exercising its discretion, the DC PCSB Board shall also consider the strength of untiered measures.

Friendship will have PMF scores for only two of the five years in its upcoming charter review cycle

due to the COVID-19 pandemic. Friendship will adopt the DC PCSB COVID-19 Impact Provision and anticipates that all Friendship campuses will meet its charter goals and will receive charter continuance.

Academic Achievement Expectations

2021-22 Performance Highlights. Overall, Friendship demonstrated growth in many areas in grades PK3 - 12. Most notably, four- and five-year adjusted cohort graduation rates for Friendship Collegiate and Friendship Technology Preparatory High Class of 2021 nearly met or exceeded the prior year performance, respectively. Moreover, 100% of graduates from the Class of 2022 were accepted to college and garnered over \$18 million in scholarships. Including SY 2021-22 scholarships, the total amount of scholarships awarded to Friendship graduates exceeds \$120 million to date. Across the Friendship network in grades PK3 through 12, results from external observation tools and protocols (CLASS, Qualitative Site Review) revealed excellence in Teaching and Learning.

CLASS ASSESSMENT

Upon return to in-person learning, Friendship PCS continued to focus on providing intensive support to prekindergarten teachers through classroom observations and coaching using the CLASS tool as well as specialized professional development through Early Release Wednesday sessions.

SY 2021-22 CLASS data show that in all domains, Friendship PCS Elementary campuses exceed city and charter averages based on the most recent District of Columbia CLASS data available, and exceed the national thresholds in the Emotional Support, Classroom Organization and Instructional Support domains.

CLASS Domain	FPCS Avg. SY 2018-19	FPCS Avg. SY 2019-20	FPCS Avg. SY 2021-22	Charter Avg. SY 2018-19	Tier 1 Avg. SY 2018-19
Emotional Support	6.1	6.1	6.3	5.9	5.9
Classroom Organization	6.2	5.9	6.3	6.1	6.2
Instructional Support	4.2	4.0	4.3	3.4	3.5

QUALITATIVE SITE REVIEWS (QSRS)

The DC PCSB conducts QSRs to gather qualitative evidence to complement the quantitative evidence gathered in the accountability framework to determine charter continuance at five-year charter reviews. From December through May, DC PCSB conducted classroom observations at each Friendship campus using the Classroom Environment and Instruction domains from the Danielson Framework for Teaching rubric. The goal is to have the majority of classrooms rated as Distinguished or Proficient across the domains. As demonstrated in the chart below, Friendship campuses met that goal.

Campus	Domain 2 % P or above	Domain 3 % P or above
Armstrong Elementary	95%	97%
Armstrong Middle	92%	77%
Blow Pierce Elementary	95%	86%
Blow Pierce Middle	93%	86%
Chamberlain Elementary	93%	86%
Chamberlain Middle	100%	85%
Ideal Elementary	96%	92%
Ideal Middle	94%	75%
Online	100%	91%
Southeast Elementary	90%	85%
Southeast Middle	80%	82%
Woodridge Elementary	82%	90%
Woodridge Middle	95%	94%
Collegiate	100%	100%
Tech Prep	93%	89%

Partnership for Assessment of Readiness for College and Careers (PARCC) and NWEA MAP

Friendship uses the NWEA MAP to monitor student growth and support achievement performance on PARCC. Since the start of the pandemic, we have focused on using assessments and other data to ensure students recover any ground that may have been lost and also to accelerate growth. We are starting to see the beginning of recovery when reviewing 2022 PARCC vs 2019 PARCC with four campuses showing continued growth in ELA and two campuses showing growth in math. Further, among all schools with high concentrations of at-risk students, Blow Pierce Elementary, Blow Pierce Middle, Collegiate High School, Ideal Middle, Southeast Middle, and Tech Prep High School have achievement rates in the top 20.

High School Academic Indicators of College Readiness

Friendship high schools focused on ensuring students get to and persist through college. Staff worked diligently with students to prepare for PSAT, SAT and AP exams and achieved promising results. On the PSAT, Collegiate 11th grade students gained ground exceeding the prior year performance and nearly matching SY 2019-20 results. Tech Prep 11th graders maintained performance compared to prior year on the PSAT; however, Tech Prep's SAT scores exceeded the prior year's results and nearly matched performance from SY 2019-20. Collegiate students continued to thrive in AP and dual enrollment courses participating in courses offered by Arizona State University, Granite State College, American University, Syracuse University and University of the District of Columbia.

	Collegiate			Tech Prep		
	2019-20	2020-21	2021-22	2019-20	2020-21	2021-22
PSAT Performance (11th grade) Score Target: 850	34%	26%	31%	41%	17%	17%
SAT Performance (12th Grade) Score Target: 890	45%	40%	35%	52%	26%	50%
SAT College Ready Performance Evidenced-Based Reading and Writing Score Target: 480	28%	21%	18%	29%	12%	26%
SAT College Ready Performance Math Score Target: 530	17%	10%	10%	17%	7%	15%
Advanced Placement/Dual Enrollment Score Targets: AP (3), DE (C-)	76%	98%	100%	100%	15%	13%

Both high school campuses continue to achieve 4- and 5-Year Adjusted Cohort Graduation Rates that exceed the State, DCPS, and Charter Sector averages.

Adjusted Cohort Graduation Rates

B. Unique Accomplishments

Below are unique accomplishments achieved, awards earned and other recognition.

Friendship Public Charter School

- Friendship collaborated with other DC Charter LEAs to provide seats at either Friendship Online or Friendship Collegiate Online to support students who received an OSSE Medical Waiver.
- With an initial grant award of \$350,000, Friendship opened a microschool at 4000 Connecticut Avenue, NW (an auxiliary space) with pods dedicated to Reggio-inspired opportunities and online learning.
- Friendship PCS was a finalist (\$110,000 award) in the 2021 inaugural class of the Sustainable, Transformational, Outstanding, and Permissionless (STOP) Award, a program created by the Yass Foundation in partnership with the Center for Education Reform (CER) and Forbes. Friendship earned the award for our SY2019-20 response to distance learning at the onslaught of the COVID-19 pandemic.
- Friendship awarded 15 - \$2,500 scholarships to Class of 2022 students at Friendship Collegiate and Friendship Tech Prep.
- Students experienced innovative summer learning opportunities through Summer PlayXperience, Friendship STEAM Camp, and Summer Learning Academy.
- Friendship continues to demonstrate strong performance on the annual Fiscal Audit Review.

Armstrong Campuses

- Ms. Bautista, Armstrong Reggio Emilia Inspired Early Childhood teacher, won Friendship Armstrong Teacher of the Year.
- Teachers, Ms. Bautista and Ms. Bryant, initiated Adult English as a second language (ESL) classes for families across the Friendship network.
- Armstrong received funding for the partnership and piloted two Literacy Lab tutors in Pre-K (first year program) and 100% of scholar participants made progress in literacy.
- In partnership with the Washington Youth Garden organization, Armstrong continued to provide student enrichment opportunities during the school day and through extended learning. They also distributed fresh vegetables to families.

Blow Pierce Campuses

- Dominique Foster, early childhood teacher, was named DC Teacher of the Year.
- Garry Cameron, middle school math teacher, was named Friendship PCS Teacher of the Year.
- Jendayi Wright, elementary school teacher, was named Washington Post DC Teacher of Year Finalist.
- 1st place speech (Aliyah Ibikunle) and 1st and 2nd place essay winners (Sharyn Baltimore and Amari Norris) in the G8 One World Writing Program (all 8th graders).
- Jayla Jordan (8th grader) was the 2nd place winner of the first annual Friendship Math Fair.
- Staged a student walkout and protest through the surrounding neighborhood related to gun violence, (lead by our 3rd grade cohort and Ms. Shatavia Kelley and Mr. ShiningStar Young).

Chamberlain Campuses

- Partnered with Keys to Literacy to provide professional development to our staff around the Science of Reading.
- 5th Grader Lucien Smith won the Math Fair for the network.
- Launched the Chamberlain Champions Soccer Team.
- Our middle school black ball team won the Championship for the DC Public Charter School Athletic Association.
- Scion Cummings won the Grant-Davis Scholarship Award.
- Initiated a mixed martial arts program for our middle school students.
- Emmanuel Elias – 4th Grade Student received the award for Chamberlain Friendship Network News Student of the Year 2021-2022.

Collegiate Academy

- Collegiate's 4- and 5-Year Adjusted Cohort Graduation Rates rates exceed the state and public charter school averages.
- The Class of 2022 awarded \$16 million in college scholarships.
- Collegiate Academy more than doubled the DC PCSB PMF target for College Readiness.
- Students participated in 26 college and AP courses.
- Five students earned the College Board AP Scholar Award for passing 3 or more AP exams.
- Five students earned the College Board AP Seminar and AP Research Certificate.
- Exceeded the District of Columbia pass rate in AP Seminar and AP Research by 40% and 70%, respectively.
- Abdul-Rasheed Flythe was awarded the Posse Scholarship to the University of Wisconsin at Madison.
- Seven students earned the OSSE Scholars Award and attended summer college programs at Syracuse University, Smith College, Emory University, and American University.
- Robin Montgomery, 12th grade Collegiate Online Academy student, won the 2021 US Open Girls' Single and Girls' Doubles Titles. This had not been accomplished by an American player since Lindsey Davenport in 1992.
- Ms. Hanna White, an AP teacher, was awarded the Champion of Excellence and Equity Bronze Award from the National Education Equity Lab for student participation and performance in the Harvard/ASU Poetry in America courses.
- The Donald L. Hence Field officially opened for the start of the SY 2021-22 Athletic Season.

Ideal Campuses

- Friendship Ideal's Black History Quiz Bowl team won both the Friendship Bowl and the City Wide Bowl. In each competition, students answered every question correctly.
- In partnership with City Blossoms, the Ideal community planted our first garden project. Each planting and harvest day, produced record turn out from students, parents and community members.
- Opened the Friendship Ideal Lamond facility to provide additional space for elementary and middle students.

Online Academy

- The Kennedy Center Next 50 recognized 5th grade student, Zyah Brown, “Fly Zyah” as a leader in the cultural arts, lighting the way forward through music, art, and action. Fly Zyah is a rapper communicating messages of social justice and standing up for what is right from a youth’s perspective.
- Eden Washington, a 6th grade student, won the Winter 2021 Amazing Race at Friendship Public Charter Schools in Washington, DC. Two other students placed second and received honorable mention.
- Brooke Stinson successfully completed her audition with the American Ballet Theatre and was selected to perform with the company at The Kennedy Center.
- Friendship Online was recognized for top academic achievement for all small Stride (formerly K12) managed schools in the country for school year 2021-22.

Southeast Campuses

- Southeast Academy is recognized as a 2022 Bold Performance school, having served a high at-risk student population and have combined math and English language arts proficiency rates dramatically higher than similar schools.
- Four Scholars (Saniya Lewis, Meagan Maddox, Monique Prillaman, and Montez Thorne) participated in the Friendship District-wide STEM Fair. Saniya Lewis placed second in the Junior Division.
- The Southeast band performed and was highlighted at the OSSE Annual Parent Summit at the Walter E. Washington Convention Center.
- The Southeast Elementary Basketball team won three consecutive games to win the Friendship Elementary Basketball Championship for SY 2021-22.
- For over five years, Southeast has partnered with Martha’s Table’s Joyful Market to provide fresh foods to the Southeast Community.
- Southeast is entering its 4th year in partnership with Verizon Innovative Learning Schools providing hundreds of middle schoolers with access to iPads and other forms of educational-based technology.

Technology Preparatory Academy Campus

- Tech Prep received national recognition by NAF as a DISTINGUISHED Academy for its Academy of Engineering.
- Class of 2022 awarded over \$2.9 million in scholarships.
- Tech Prep achieved a FAFSA completion rate of 94% for Washington, DC.
- Nashay Jackson and Mikhyia Jones placed 1st in the Friendship STEM Fair on Sudden Infant Death Syndrome Prevention Monitor.
- Aliea Manseray participated in the Accenture Apprenticeship Program.
- The Tech Prep Team won 1st place in the Friendship Black History Month Quiz Bowl.
- 100% College Acceptance Rate.
- 1st Fine Arts Production held at a professional theater: THEARCC.
- Keith Killgo received the 2022 DC Jazz Leaders in Service Award.
- Latoya Harper and Kenyatta Robinson – 2022 Kiwanis DC Scholarship Recipients.
- Launched our first Teen Wellness Summit.
- Public Charter School Athletic Association Varsity Boys Basketball Champions.
- Four scholars were awarded the DCCAP University Partnership Scholarship.
- Nyshae Dyson was the recipient of the College is Cool, Inc. – Charlie Wilson Scholarship.
- Six seniors were recipients of the Friendship Scholars Scholarship.

- Evan Thompson was awarded the ACE Scholarship (Architecture Construction Engineering).
- Mid-Atlantic Pom & Dance Association Competition – Titans Auxiliary Dance Varsity Team won eight events and the Junior Varsity team won two.

Woodridge International Campuses

- Woodridge was recognized as the Friendship Network News Special Bureau of the Year.
- Mason Bivins (5th Grade at the time): Junior Division Winner of the Friendship District-Wide S.T.E.M. Fair.
- EF Education First Travel Tour: Five students traveled to Panama to experience the culture, customs and traditions.
- “Kidpreneur” Gabrielle Loftin (3rd Grader at the time) published 9 books (The Abby YoYo series) and was featured on a local news station as well as participated in a book signing on Howard University’s campus.
- Staff Professional Development/External Accomplishments:
 - L.Burn, N. Klein, A. Christian, M. Griswold, A. Dudley, K. Allen: conferral of graduate degree
 - C.Hollis: selected to be a pilot member of the National Association of Black Male Educators’ Leadership Incubator Fellowship
 - T.Mintz: created and implemented curriculum with the Friendship Team for the 1619 Project with the Pulitzer Center. She presented her curriculum at NCSS's webinar titled “The 1619 Project for Middle and High School Social Studies” and was a panelist at the Pulitzer Center 1619 Project Educator Conference.
